PRODUCT CHANGE NOTICE
XPort 6.6.0.2

Dear Valued Lantronix Customer,

Lantronix is pleased to announce the launch of the updated and improved version 6.6 XPort firmware. Effective November 12, 2008, firmware version 6.6.0.2 and Web Manager 1.7.0.1 will ship on the XPort products listed in the table on page 2 of this notice. For quality and tracking purposes, the manufacturing revision numbers on the product label will be changed. New revision numbers are also listed in the table on page 2.

New Features:

DNS lookup in Connect Mode
   • Allows the name of a remote machine to be resolved automatically.

Expanded Monitor Mode commands 'NC' and 'co' to include name server IP address
   • Shows the unit's current IP address, gateway, subnet mask, and DNS server.

For customers that would like to take advantage of the new capabilities immediately, the code and release notes are now available for download from our website:

http://www.lantronix.com/support/downloads.html OR ftp://ftp.lantronix.com/pub/XPort-03/6.6.0.2/
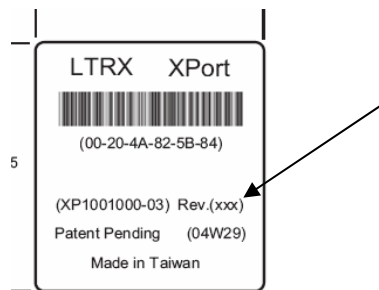

Upgrade/Update Process

No special upgrade/update procedure is necessary.

XPort and CPK customers

Customers using Lantronix CoBos Programming Kit (CPK) for their application may receive an updated CPK immediately.

Revision Tracking Information on XPort Label

Please note that the revision information for the XPort product is on the label in the location shown below:
