PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

In our continued process of improving our products, Lantronix is introducing new firmware for the XPort-03 products. This release, version 1.8, replaces version 1.6 firmware for the XPort product.

Version 1.8 firmware is a maintenance update that resolves the limited temperature range of the preceding firmware version. This update provides the XPort-03 with the capability to support a temperature range lower than -10 °C. All other parameters and features remain unchanged.

Part numbers affected by the firmware upgrade:

XP1001000-03
XP1002000-03
XP100200S-03
XP100200K-03

Firmware Improvement

The new firmware version enables XPort-03 to support the following temperature range:

Operating: - 40 °C to +85 °C (-40 °F to 185 °F) normal mode
 - 40 °C to +75 °C (-40 °F to 167 °F) high performance mode

Storage: - 40 °C to +85 °C (-40 °F to 185 °F)

Additional Information

The new firmware will begin to ship with new orders starting on August 24, 2004, and is also available as an upgrade to existing units via a download procedure. For more details and download information, release notes are available via the Lantronix web site at www.lantronix.com.

If you have any questions, please contact your sales representative or Lantronix Customer Support at (866) 649-0721 or (949) 453-3990 x342.
