PRODUCT PHASEOUT NOTICE

Dear Valued Lantronix Customer,

The purpose of this notification is to inform you that Lantronix is phasing out the Commercial Temperature versions of the standard XPort (XP1001001-04R and XP1002001-04R). To provide better value to our customers and take advantage of economies of scale, Lantronix is consolidating our standard XPort offering, making the Extended Temperature versions (XP1001000-04R and XP1002000-04R) as direct replacements.

Note: The XPort Extended Temperature version has the same feature and functionality as of its Commercial Temperature counterpart. However, for those that need to do product evaluation before making the transition, a sample version of the XPort Extended Temperature (XP100200S-04R) with Encryption is available.

The table below shows a list of SKUs being phased out:

Part Numbers	Product Description
XP1001001-04R	XPort, Commercial Temperature, No Encryption, Bulk, RoHS
XP1002001-04R	XPort, Commercial Temperature, w/ Encryption, Bulk, RoHS

SCHEDULE: The deadline for placing a final non-cancellable, non-returnable purchase order for the above SKUs is **February 28, 2013** with **shipments scheduled no later than May 31, 2013** (availability subject to supply on hand).

The effective direct replacements for the above SKUs are as follows:

Phaseout SKU	Replacement SKU	Product Description (Replacement SKU)
XP1001001-04R	XP1001000-04R	XPort, Extended Temperature -40° to 85°C, No Encryption, Bulk, RoHS
XP1002001-04R	XP1002000-04R	XPort, Extended Temperature, -40° to 85°C, w/ Encryption, Bulk, RoHS

XPort, Extended Temperature, Sample SKU:

Part Number	Product Description
XP100200S-04R	XPort, Extended Temperature -40° to 85°C, w/ Encryption, Sample, RoHS

If you have any questions, please contact your sales representative or Lantronix Customer Support at (866) 649-0721 or (949) 453-3990 x342.
