

PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

This is to inform you of an upcoming change to the Lantronix embedded Japan XPort products listed below.

Change Type

Contract Manufacturer

Product Affected

Part Number	Description	Current Revision
XP3002000-01R J	XPort AR RoHS, Bulk, Extended Temp. -40 to 85C	F14
XP300200S-01R J	XPort AR RoHS, Sample, Extended Temp. -40 to 85C	F14

Description and Extent of Change

Lantronix is qualifying new Contract Manufacturer (CM), same subcontractor for the product listed above as a second source. This CM has been a supplier to Lantronix for over 10 years and has an excellent history of high quality.

With this change, the additional Contract Manufacturer will be using similar testing equipment, processes and materials. Product will still be manufactured according to the same electrical and physical dimension specifications. Lantronix will ensure that appropriate process controls and monitors are in place at the new Contract Manufacturer to continue providing high quality product.

The product will be identified with a factory location as shown in the table below.

	Current CM	Additional CM
Location	China	China
Label Marking	Made in CHINA 02	Made in CHINA 01

Reason for Change

This change is to ensure supply from multiple sources within the Lantronix supply chain.

Effect of Change on Fit, Form, or Function

There are no changes to electrical specification, external form, fit, function, quality or reliability in the final product

Effective Date of Change

Product shipment from new Contract Manufacturer will be effective March 5th 2018.

If you have any questions, please contact your sales representative or Lantronix Technical Support at (800) 422-7044 or (949) 453-7198.
